

The International Office of the Catholic University of San Antonio in Murcia is looking for a trainee or a junior assistant from the **Erasmus Training Programme** who could speak **English and Spanish fluently**.

We offer an international atmosphere, a direct contact with the incoming students management and the approach to the mobility action steps in our institution. The period of the stay at UCAM would be from next **January 2013** until **June 2013**, but it could be negotiated.

The student will enjoy working in a very growing University, at the same time that he/she meets the culture and the diversity from the south east of Spain.
