## DETAILED DESCRIPTION OF THE TRAINING PROGRAMME IN FILMING

The placement will give students a unique opportunity to train and complete their vocational education and training in a Country within enlarged Europe. During his or her stay, the student will be involved in:

- *Producing*
- *Editing*
- *Camera and Sound*
- *Gallery and Vision  
Mixing*
- *Live and Pre Recorded  
Broadcasting*
- *Studio based and  
outdoor production and  
filming*
- *Market research*
- *Advertising*
- *Script writing*
- *Coordination of TV  
presenters*
- *Programme scheduling*

Our aim is to provide a comprehensive learning experience in all aspects of broadcast production

from pre to post production including both technical, administrative, and creative roles in order to help the student to choose an area of production or operations which best fits his or her aspirations.

During the training you will have the opportunity to work with the marketing specialists. You will pick up the essential skills needed for a successful marketing professional. At the end of the training period the trainee will have had the opportunity to gain a complete all round experience of television production in an operational and highly sought after broadcasting environment; plus an idea of their likely aptitude toward a very specialist area.

## FEEDBACK BY CURRENT INTERNS AT SIKH CHANNEL

I have been working for the company since one month. I am working as a camera assistant. This task has been interesting for me because I had not done anything similar before. I can develop theoretical knowledge acquired through my study at University. Constantly I receive interesting working tasks with which I can improve my skills. The people working here are willing and ready to answer my questions. Working in Sikh Channel is the excellent opportunity for me. With this decision I can increase my chance to be successful in my future.

I have been here for 2 months .I am working with media and I spent my time going on assisting production team.I would definitely recommend it, it's laid back and gave me a lot of confidence to go out and finally start applying for jobs and internships. I gained a lot of confidence I make a lot more sense and I meet different cultures. I found people so fascinating from different cultures, religions and social status'.

I have spent my 2 months of internship here at Sikh Channel TV, and I have gained useful experience both in the studio, and on outside shootings. I think the skills that I have obtained here will be of great use, and are essential towards my career in the future. Also, I was able to improve my English, and working in a multicultural environment with all friendly and helpful people has taught me some things that will help me in every part of my life.
